Dear Jim

PM 1412 EPO
Our File: 32836

I enclose the European search report recently received on this case together with copies of the cited documents.

You will note that the first four references are in the 'particularly relevant' category, although the first reference is already discussed in the present application. These categories are, of course, for information only and are not binding on the Examiner who will eventually have to deal with this application.

If any question of voluntary amendment should arise, either because of this search report or on account of Art cited in the United States, please let me know since it may be desirable to file amended claims for the purposes of examination.

In the absence of positive instructions we will do nothing about amendment but we shall need instructions in due course regarding the payment of the examination fee.

Yours sincerely

J.H.Bass
